FOREWORD

As a part of State Safety Program (SSP), all approved organisations have been scheduled to be inspected by the DCA Mauritius on a regular basis to assess their performance as per the scope of their approval. The frequency, duration and level of surveillance depend on the size of each organization and level of operations. This document is published in order to allow the approved operators to plan their activities accordingly. The Department of Civil Aviation of Mauritius may not be issuing separate request letter for auditing the organisation as this document supports the surveillance planning of the organisation.

DCA has implemented a documented surveillance process, comprising of planned inspections, audits, and monitoring activities on a continuous basis, to proactively assure that aviation license, certificate, authorisation and/or approval holders continue to meet the established requirements.

I POKHUN

Director of Civil Aviation

DCA MAURITIUS ANNUAL SURVEILLANCE PROGRAMME 2024

The following points are to be considered for surveillance of organizations.

There is a team of five inspectors will be carrying out the audit. (Three Airworthiness inspectors, one Licensing inspector and one Flight Operations inspector)

Based on the availability of the inspectors, the team will perform the assigned safety audits using the RBSR methodology (Risk Based Safety Oversight).

However,

- the team of inspectors may be changed if the group member(s) is not in a position to take up the audit.
- The Head of Flight Operations or the Head of Airworthiness will supervise and overview the audit.
- Organizations are required to plan their activities in accordance with this program.
- There will be separate letter issued for the planned audit, including the audit plan.
- The operators are required to make available the responsible post holders or responsible personnel during the DCA Mauritius Audit.
- The team of inspectors will carry out audit based on the reference checklist. However, the team may follow industry recommended practices as well.
- The operators are required to extend the co-operations while the DCA Mauritius teams are conducting the audit.
- DCA Mauritius may postpone the audit based on the circumstances.
- The auditing team will issue a letter soon after the audit including the list of non-compliance / finding observed during the audit. The non-compliance(s) / finding(s) are classified as Level 1, 2 and 3 depending upon seriousness. Level 3 discrepancy has to be rectified immediately. Level 2 findings are to be rectified not later than one-month period and Level 1 findings are to be corrected not later than 3 months, unless and until accepted by the DCA
- Post holders/ Responsible manager / Accountable manager shall return the document with proposed date for the correctives actions and closure of the discrepancies.
- In this Annual Surveillance Plan, audits/inspections are scheduled on a weekly basis - The exact schedule of audit/inspection days is communicated to operators two weeks beforehand.
- DCA inspectors may carry out unscheduled inspections in addition to the annual surveillance plan.
