Runway End Safety Areas (RESA) at Sir Seewoosagur Ramgoolam International Airport

The Sir Seewoosagur Ramgoolam International Airport is equipped with well-defined Runway End Safety Areas (RESA) to enhance operational safety and comply with international aviation standards. Below are the dimensions of the RESAs at the airport:

Runway Designation	RESA Dimensions (M)
14	240 x 150
32	240 x 150

These RESAs are strategically designed to provide safe overrun areas at the ends of runways, minimizing the risk of accidents and safeguarding passengers, crew, and aircraft during landing and take-off operations.

K. SAKURDEEP
for Director of Civil Aviation
