**Implementation of Digital Automatic Terminal Information Service (D-ATIS)
at Sir Seewoosagur Ramgoolam International airport**

1. Introduction

The Department of Civil Aviation hereby informs all airspace users and stakeholders of the implementation of the Digital Automatic Terminal Information Service (D-ATIS) at Mauritius, effective **13 November 2025 at 1000 UTC**.

2. Objective

The introduction of D-ATIS aims to enhance the dissemination of aerodrome operational information, improve situational awareness, and reduce radio congestion on ATC frequencies.

3. Scope

D-ATIS will be available at Sir Seewoosagur Ramgoolam International Airport (FIMP) and will provide real-time terminal information including:

- Meteorological conditions
- Runway in use
- Approach and departure procedures
- Any other relevant operational data

4. D-ATIS updates

Information will be updated at regular intervals (every 30 minutes) or whenever significant changes occur.

5. Operational Impact

Pilots are encouraged to utilise D-ATIS (126.2 MHz) prior to contacting ATC to minimize frequency congestion and enhance operational efficiency.

6. **Contact**

For further information or technical assistance, operators may contact:

Air Traffic Management Services

Department of Civil Aviation
